DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE.

WEEK ENDED SATURDAY, JULY 9, 1960.

The State remained free from Plague during the week as in the previous week and also in the corresponding periods in 1958 and 1959.

A total of 52 attacks with 12 deaths from Small-pox were reported from the Taluks of Bangalore North, Chitradurga, Mudigere, Chikodi, Sampgoan, Belthangadi, Bhadravati, Siraguppa, Badami, Navalgund, Mangalore, Putter and in the cities of Mangalore and Bangalore and in the town of Udipi.

The State remained free from cholera during the week.

A total of 1 attack with nil death from Kyasanur Forest Disease was reported from Shimoga District.

The State remained free from Yellow Fever, Relapsing Fever, Infectious Hepatitis and Influenza

The total mortality for Bangalore Corporation amounted to 278 (8·4 in hospitals) for the week giving a calculated death-rate of 11·3 (7·9 excluding hospital deaths) per mille of population (mid-year estimated) as against 7·6 (4·1 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 45 due to Dysentery and Diarrhœa, 3 due to Small-pox, 4 due to Consumption and 226 due to All Other Causes.

The total mortality for Mysore City was 44 (20 in hospital) for the week representing a calculated death-rate of 5·9 (3·2 excluding hospital deaths) per mille of population (mid-year estimated) as against 8·7 (4·5 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 5 due to Other Fevers, 8 due to Dysentery and Diarrhœa, 3 due to Consumption and 28 due to All Other Causes.

There were 26 deaths (1 in hospitals) for the week from all causes in Kolar Gold Fields City equivalent to a calculated death-rate of 7·2 (6·9 excluding hospital deaths) per mille of population (mid-year estimated) as against 7·6 (5·6 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 8 due to Other Fevers, 3 due to Dysentery and Diarrhœa, and 15 due to All Other Causes.

The total mortality for Belgaum City was 21 (1 in hopital) for the week representing a calculated death-rate of 9·2 (8·8 excluding hospital deaths) per mille of population mid-year estimated) as against 7·2 (nil excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 2 due to Other Fevers, 3 due to Dysentery and Diarrhœa, 2 due to Consumption and 14 due to all Other Causes.

The total mortality for Mangalore City was 17 (11 in hospitals) for the week representing death-rate of 5·3 (1·8 excluding hospital deaths) per mille of population (mid-year estimated) as against 3·5 (3·3 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 3 due to Consumption and 14 due to All Other Causes.

S. T. RODDA,
Director of Public Health.
